EXPERIENCE

Unchained Capital

Mar. 2022 – Apr. 2026

Operations Manager, Revenue & Platform | Mar. 2023 – Apr. 2026

Remote

- Unchained Capital is a fintech firm providing custody and secured lending services to individuals and businesses, with \$7+ billion secured and \$1+ billion in loans originated.
- Designed and maintained the GTM infrastructure, co-owning HubSpot end-to-end (super admin, 75+ users, 7 teams) including pipeline configuration, lifecycle stages, lead scoring, workflow automation, and cross-stack integrations.
- Designed and launched a subscription renewal dashboard in Metabase, integrating data from CRM, Stripe, and the data warehouse, which saved 5-10 hours per week for each CRM, reduced missed renewal conversations by 80%, and provided new renewal visibility for leadership's biweekly reporting.
- Spearheaded the Revenue Operations 'Good-to-Great' initiative, auditing GTM data plumbing, identifying pipeline attribution gaps, and implementing scalable fixes that reduced manual reporting work and improved cross-functional data consistency.
- Boosted lead attribution coverage from 20% to 75% by developing unified data pipelines with SQL, Metabase, and Hightouch, enabling more informed decision-making and improved tracking across the customer lifecycle.
- Managed and mentored a direct report on the revenue operations team, setting quarterly and monthly goals, delegating work, and ensuring consistent progress toward key initiatives.
- Designed a tiered comp structure spanning lead-passing bonuses, new-close commissions, and trailing commissions with renewal incentives, building the model logic, maintaining the audit trail, and ensuring payout accuracy across variable triggers and renewal cycles.

Concierge Director | Mar. 2022 – Mar. 2023

- Led onboarding, support, and experience initiatives for 250+ clients, improving conversion, activation, and retention across the customer lifecycle.
- Designed and optimized 20+ onboarding workflows and handoffs between Sales and Client teams, enhancing pipeline progression and time-to-activation.
- Partnered with Sales and Marketing to analyze conversion drivers, informing improvements to GTM strategy and funnel performance.
- Devised user testing plans for new product features; created test guides and defined success criteria, supporting 10+ product launches and improved adoption.
- Collaborated with Product and Engineering to prioritize roadmap using customer insights, funnel data, and competitive analysis.

University of Minnesota, Dept. of Laboratory Medicine

May 2018 – Sep. 2021

Researcher II

Minneapolis, MN

- Interpreted large-scale genomic datasets to identify potential biomarkers for disease progression and treatment response.
- Contributed as second author to the Nature journal 'Cell Death & Disease,' resulting in over 20 citations highlighting research impact.
- Optimized image-based cell counting procedures, enhancing data accuracy and decreasing experiment duration by 25%, which increased overall lab efficiency.
